

Layered Beginnings An Abstraction by Design Workshop

Layered Beginnings:

This mixed media workshop focuses on creating dynamic textured surfaces as a first step in the Abstraction by Design process. The application of layers of both paper and paint produce surfaces enabling us to sand, scrape, peel, paint, collage and repeat multiple times.

Class goal: Complete a series of layered surfaces. These completed backgrounds are working surfaces ideal for one to begin creating your paint & collage projects.

Resources:

6-Cradled Panels 14"x14": Blick item # 07044-1414 (you can use re-purposed existing panels as well).

Black Tissue. Satin Wrap [LINK HERE](#) This is a good resource for tissue but, I suggest you google black/color non bleed tissue for other resources.

Newsprint/Packing Paper: Newsprint local art store(Blick). Packing paper ([LINK](#))

Flexible Broad Knife 6": Item # 787291. Full Flex 6" Broad Knife. [LINK HERE](#)

Chip brush: Local paint/hardware store.

Blue masking tape: Local paint/hardware store.

Latex house paint: Local paint, hardware, DIY box store(Home Depot) stores.

Water base clear Urethane/poly-urethane (gloss/semi gloss). Local paint, hardware, DIY box stores. (Any brand)

Before you begin the workshop

The Layered Beginnings workshop requires a pre- workshop cradle & panel prep.

The pre- workshop prep materials you need are:

Cradled Panels, Black Tissue, Black latex house paint, Chip brush. 6" Broad knife. Blue masking tape.

Water-base clear poly-urethane (gloss/sg). **These materials are part of and included in the Workshop**

Materials List below.

THESE PANEL ASSIGNMENTS NEED TO BE COMPLETED BEFORE THE WORKSHOP.
